CHEST DRIVE WORKERS PLAN BIG CAMPAIGN

Team Workers, Following Campaign Meeting Last Evening, Enjoy Theater Party at Dreamland

The team members of the men's division of the Community Chest Campaign met last night in the Chamber of Commerce rooms Mayor Jones, Director-in-Chief, presided at the meeting and in his opening remarks stated that this campaign which would be known as the telephone campaign would be the biggest thing ever put on in the city of Elyria "The time has come when the citizens of Elyria must get back of the institutions which make for a thrifty development of the city of Elyria"

The plan of campaign was outlined and each team was assigned their prospects After the meeting, the team workers went over to the Dreamland Theatre where Milton Phelps, Chairman of the Moving Picture Committee, showed the film "The Greatest of These" This picture is interspersed with local scenes and has the greatest appeal of anything ever shown in the city.

Mr Phelps has willingly agreed to run this picture in all of his four theatres The picture will be seen in the theatres for the first time on February 8th.

The spirit and enthusiasm over the campaign is running at a high pitch and wonderful results are expected.

Villa Band Loots Train in Mexico

Douglas, Ariz., Jan. 31 —Military guards have been doubled on all railroad trains leaving the border for the interior of Mexico, say official orders received by Mexican military authorities at Auga Prieta, just across the line

The orders issued by President Carranza were said to have been the result of an increase in bandit attacks and robberies.

Five attacks have been made on Mexican Central trains in as many days, passengers were robbed, the trains looted and the guards executed by bandits, one band of whom is said to have been led by Francisco Villa

Villa, reports say, now has 4,000 modernly equipped troops and will attempt to recruit 6,000 more to wage a campaign for the possession of Chihuahua City, recently designated provisional capital of the new revolutionist party of Mexico of which Villa has been named commander-in-chief.

PICKS FIFTH AVENUE FOR ONE WAY STREET

(By Associated Press)
New York, Jan. 31.—Fifth avenue, a thoroughfare that includes two of the world's greatest focal points of travel, may be made a "one way" street in an effort to regulate the tremendous flood of vehicular traffic, it was learned today

Police officials and the Fifth Avenue Association have drawn up tentative plans calling for the flow of traffic southward in the forenoon and northward in the afternoon. The scheme probably will be put into effect in two weeks as an experiment.

Officials who have studied the problem claim the "one way" regulations is the only thing that will prevent complete paralysis of traffic.

Statistics show twenty-eight vehicles pass 42d street and Fifth avenue, the first focal point, every minute during the day. Total cars passing that point in ten hours last June was 15,997, and the number is said to be larger now.

PARTIES SOUND FARMERS' EDICT FOR '20 PLANKS

Demands of Agriculturists Present Vital Issues For Both Parties in Approaching Campaign

Washington, Jan 31.—The sane, strong, statesmanlike declaration of the executive heads of six of the largest farmers' organizations in the United States on vital national issues is bound to have a wholesome, rejuvenating effect upon the entire country.

This virtually is the unanimous opinion of members of Congress government officials and party leaders.

As a rebuke of radicalism, an exposition of sound, economic principles and expression of undiluted Americanism, the declaration is expected to prove a much needed tonic, political and otherwise.

Both Republican and Democratic leaders are likely to incorporate many of the views as planks in their national platforms.

BAD PLUMBING IS MENACE TO CITY HEALTH

Plumber, in Advocating ~~Need of~~ Inspector, Says Much Plumbing in Elyria Is Inferior and Detrimental to Health

The Board of Health failed to have a quorum present last evening, there being but members Hoak and Stetson present, together with the employees of the Board.

While no business could be transacted, William Seibensist, representing the Plumbers' Union addressed those present on the needs of a plumbing inspector for this city.

Would Safeguard Health

He took the position that a plumber should safeguard the health of the public as much as a physician, and said no man could join his union until he had passed a satisfactory examination as to his qualifications. Otherwise he was classed as an apprentice.

He admitted at the same time that the plumbers were not doing satisfactory work in some instances because of proper plumbing regulations. He also gave specific cases of buildings where unsanitary work had been installed, and the conditions were in some cases startling to say the least. One of the instances was The Chronicle-Telegram toilet where the pipes were cemetend instead of bing properly caulked. He told of two hotels where the conditions were exceedingly bad and of an apartment house where the drainage to the refrigerator was syphoned in such a way that when the toilets were used as to allow sewer gas to enter the refrigerator, tainting the food. He claimed a bad connection existed in the basement of the hospital which also allowed sewer gas to escape. Many dwellings that had bad plumbing mostly installed by amateurs were specifically located, and the names of the owners given.

Wants Ordinance

He asked that the Board of Health provide an ordinance requiring the employment of a regular licensed plumber as an inspector, and said the office could be nearly made self-supporting, by charging 50 cents for permits. Nothing can be done, however, until next June, as the appropriation for the first six months for the Board of Health has already been allowed. Between now and next June a strong effort will be made to have a plumbing code adopted and an inspector installed.

DEFENSE TRAINING URGED BY PERSHING

Phoenix, Ariz., Jan. 31.—Urging maintenance of a cadet military establishment that would be entirely free from all taint of militarism but afford a foundation for a great army that might be needed some time in the future, Gen. Pershing at a dinner here described his plan of preparedness

The general advocated a six months' military course for all male students

"The time may come," Gen Pershing said, "when the country will have to face a great enemy and when it will not have a trained army of allies to hold the enemy in check while the Americans learn the game of war."

BIG TOWNSHIP IMPROVEMENT OF ROADS PLANNED

Trustees Start Progressive Movement to Benefit All Residents of Township — May Issue Bonds

The Elyria township trustees, meeting today, decided to take a progressive movement in the improvement of all highways in the township.

The movement, discussed for some time, has met with popular approval both in the city and township.

Amherst Lets Contract

The first road to be improved is the highway along the Elyria-Amherst township line. Through an agreement Amherst builds one mile the county commissioners another mile and Elyria township the third mile. Amherst has let the contract for her portion of the work

The trustees were informed today that residents of the West Ridge road are circulating a petition to have that highway improved.

Trustee H C Chambers said the roadways of the township at this time are in excellent condition to be improved with cinders in many sections The roads were scraped last year and the cinders could be distributed without much preliminary work

Movement Is Popular

The township trustees are of the opinion that all township roads should be improved and would like to hear from the people of both the city and township in this movement.

The trustees, if the movement is approved by the taxpayers, may issue bonds to carry out the desires of the township residents. It is not thought that a bond election for this purpose will be necessary.

7 DEAD, 100 ROUTED IN PITTSBURG FIRE

Fifteen Homes and Office Building Destroyed in Steel Zone—Fire Threatens Suburb--Bodies Recovered From Ruins

Pittsburg, Jan. 31.—Seven persons are known to have been burned to death early today when fire, fanned by a high wind, destroyed fifteen temporary residences occupied by employees of the Carnegie Steel Co.'s plant at Clairton, on the Monongahela river, fifteen miles from Pittsburg.

An office building also was consumed.

The fire, thought to have started in a building used as a kitchen, destroyed the structures within fifteen minutes. More than 100 occupants of the houses, one-story frame buildings, were forced to flee in night clothing. The Clairton fire department assisted by the fire fighters of the Carnegie plant, tried to control the blaze, but the effort was fruitless.

As soon as the fire had burned itself out, firemen started a search of the ruins. Within a few minutes seven bodies had been recovered. The search was continued, for it was impossible to ascertain if all other occupants of the house had escaped.

COMMANDMENTS NUMBER 10 IN THRIFT DRIVE

"Save Up and Pay Up" Period Set for First Fifteen Days of February

The Better Business Club will arrive home for the first fifteen days in February, the idea of "Save Up and Pay Up" In this connection they want to bring home to the citizens of Elyria the following ten commandments:

1—Work and Earn.
2—Make a Budget.
3—Keep a record of expenditures.
4—Have a bank account.
5—Carry Life Insurance.
6—Own your own home.
7—Pay your bills promptly.
8—Invest in Government securities.
9—Share with others.
10—Make a will.

It is the idea of the campaign to create in the minds of the citizens the ideas of thrift and the one biggest asset to this habit is to owe no man a cent and pay your bills promptly.

Swan Imprisoned When Water Froze While in Bathing

Superintendent Cowley of the Longwear Rubber Co., with Assistant Superintendent Allison and one of the workmen, performed the hero act last evening when they observed a swan frozen in the ice in the rear of the plant on the river.

The swan was one of a pair that belongs to A. B. Taylor and it had evidently attempted to take a bath in a pool that had not frozen over It stayed in too long and became fastened so firmly that it could not get away. Its plight was observed and armed with axes and crowbars the party descended to the river. They were not joyfully received as the swan, mistaking their good intentions, hissed at them spitefully and tried to rip out sections of their nether extremities. They got to work, however, and soon had the handsome fellow loose. He did not even pause to say thank you, and Allison swears he saw the swan put his foot up to the end of his beak as with a loud squawk he scurried back to join his companion in his shelter house.

CHRISTIAN ENDEAVOR WEEK FEB. 1-8

The Intermediate and Young People's societies of Christian Endeavor at the First Congregational church are uniting to observe Christian Endeavor week Feb. 1-8. This is the 39th birthday of Christian Endeavor and its founder, Dr. Francis E. Clark, is still living and at present the president of the World Union. It has grown from one society at a Congregational church at Portland, Me., to a world-wide movement including all nations and 80 denominations.

The Endeavorers at First church are planning to attend morning services on Sunday morning in a body, especially to hear the sermon on "The Valley of Decision" which Rev. J. H. Grant will preach for young people. The regular meetings at 6:30 will be special in their character, and all young people are cordially invited.

The annual Endeavor week banquet of the two societies will take place on Wednesday evening, Feb. 4. The two social committee chairmen, Harriet Nevins and Martha Radachy, are in charge of the supper, and the after dinner toasts are in charge of Allen Coven. Those who have attended previous banquets of First Church Endeavorers may well anticipate a mirth-provoking program. On Thursday evening the Endeavorers will join with the church night service, and will pursue the course in Expert Endeavor. On Friday evening the Lorain County C. E. union will conduct a fellowship meeting in the Gates room of First Congregational church, which will be in the nature of a stunt night, each society in the county furnishing one stunt. Young people of Elyria are cordially invited to share in this live program of the week. Further announcement will be made for next Sunday, which is to be "Decision day."

WEST SIDE SERVICES CONTINUE IN INTEREST

A large audience listened to Rev. Bertha Harris, as she preached Friday evening from the text, Isa. 53:6. "All we, like sheep, have gone astray. We have turned everyone to his own and the Lord hath laid on Him the iniquity of us all.

She said: "It is a strange thing with sheep that where the leader goes all will follow, even though over a ragged cliff to death, as in an illustration she used where twelve hundred sheep jumped to their death. "People are like sheep, they follow leaders. All cliques, gangs, call them clubs, if you please, have a human leader, and if that leader may be won for Christ, the community will be changed. You never commit a sin but some innocent person suffers. Sin slops over on someone else. She painted a vivid word picture of the Saviour as carrying the cross, he fell 'neath its weight, having sweat blood in the Garden, was nailed to that cross—the awful anguish he suffered as he cried out "My God, why hast thou forsaken me?"

In the services, under the preaching of Mrs. Harris, who, full of love and tenderness, expounds the Word of God so powerfully, over a hundred souls have publicly confessed Jesus as their Saviour, and a large number of Christians have re-consecrated their lives to Christ.

All are welcome, cordially invited to attend the Sabbath day services. Sunday school at 9:45 a. m., followed by preaching at 11 o'clock.

At 3 o'clock, men's meeting, conducted by Mrs. Harris, on "Wages."

ESCAPED AN OPERATION

By Taking Lydia E. Pinkham's Vegetable Compound. Many Such Cases.

Cairo, Ill.—"Sometime ago I got so bad with female trouble that I thought I would have to be operated on. I had a bad displacement. My right side would pain me and I was so nervous I could not hold a glass of water. Many times I would have to stop my work and sit down or I would fall on the floor in a faint. I consulted several doctors and every one told me the same but I kept fighting to keep from having the operation. I had read so many times of Lydia E. Pinkham's Vegetable Compound and it helped my sister so I began taking it. I have never felt better than I have since then and I keep house and am able to do all my work. The Vegetable Compound is certainly one grand medicine."—Mrs. J. R. MATTHEWS, 3311 Sycamore Street, Cairo, Ill.

Of course there are many serious cases that only a surgical operation will relieve. We freely acknowledge this, but the above letter, and many others like it, amply prove that many operations are recommended when medicine in many cases is all that is needed.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass.

LOCAL BAPTIST EVANGELISTIC MEETINGS OVER

Evangelist Crabill Secured Seventy Conversions in Month's Stay Here

The evangelistic services which have been held during the entire month of January, in the Baptist Church, closed on Thursday evening with a surprise service which proved a fitting climax and close for the series. About seventy-five of the men of the church responded to Evangelist Crabill's invitation to come to the platform. Then, under his leadership two rousing songs were put on by them after which he left the platform and went down into the audience and the men one by one stepped up to the pulpit and gave the audience seventy-five sermons through testimony and pointed remarks. This unusual turn in the program proved to be one of mighty inspiration and helpfulness and was from every angle a distinct surprise to every one in the audience.

The month's drive has brought out over 70 clean cut conversions, the majority of which were mature people, and has proven a distinct uplift and help to the hundreds that have more or less regularly attended the services. Mr. Crabill leaves behind him a host of friends as he proceeds at once to his next field of work.

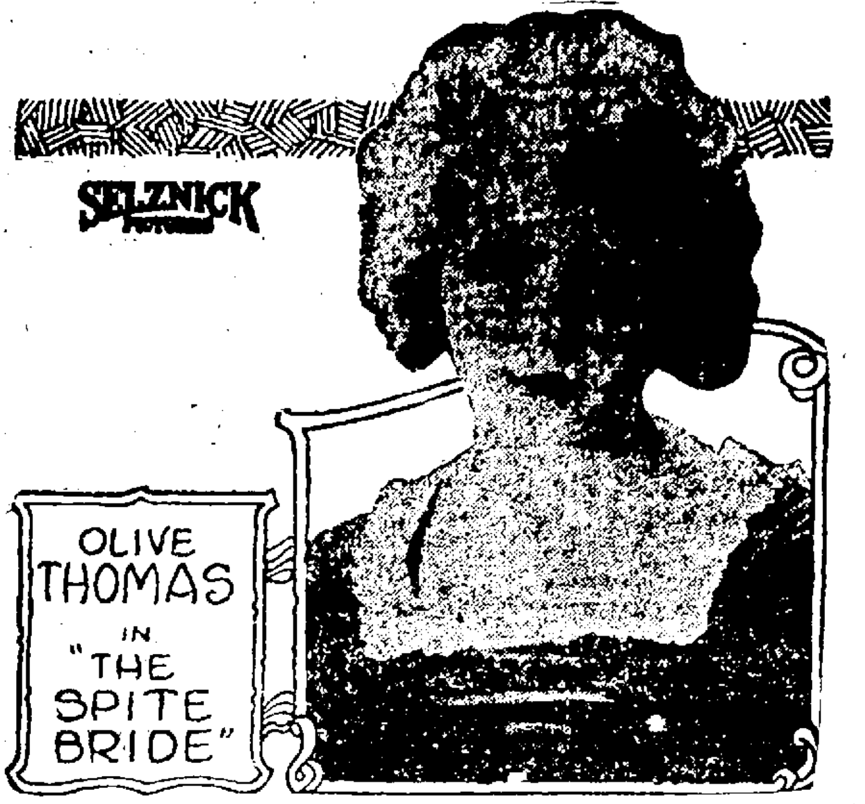
'THE SPITE BRIDE' STARTS RUN TOMORROW AT AMERICAN



SELZNICK PICTURES
OLIVE THOMAS IN "THE SPITE BRIDE"

Would you like to be the bride of a an who had married you just to pite another woman? Billy Swayne, a cion of one of New York's oldest famjes didn't love Tessa Doyle the little ancing girl he married; in fact, he ardly knew her.

When Millicent Lee had jilted him to arry another man, Billy thought the orld had ended. He did not know hat to do and so, as is usual in such nstances, he took the first bit of adice given him. Rodney Dolson told im to get married—immediately—efore Millicent did, so that it would ok as if he had thrown Millicent ver for this other girl. It didn't ake much difference who the girl as. H. could marry her, give her a ousand and send her to Reno.

So when they saw Tessa Doyle at the theatre that night, they immediately decided that she was just the girl. Now, Tessa wasn't the usual type of dancing girl. She was young, fresh and as yet unsmirched by the grease paint and footlights. She was innocent and good. She didn't want to marry Billy on the conditions that he named. She had a different idea of what marriage ought to be—something sacred. But her will was not strong enough to battle against those of Billy, Rodney and her dancing partner, Trixie. So she was married.

This is the thrilling story of "The Spite Bride," in which Selznick Pictures present beautiful Olive Thomas and which starts tomorrow to the American theatre.

Because she risked ridicule and determined to pay for the misery she ad caused and admired society said e was "crazy."

Was there ever a girl confronted ith such a situation as Katherine acDonald as Amelie Thorndike in The Beauty Market" which will be own at the Colonial Theatre comencing Sunday.

'SPEED,' RIOT OF FUN, AT AMERICAN SUNDAY AND MONDAY

The first Al. St. John riot of fun is ming to the American Theatre on nday and Monday. His first comedy called "Speed" and he the messenger ho does everything on his wheel, he monstrates that besides being a wonrful acrobat he is also an expert ick bicycle rider.

In the chase after the crooks, who dnap his sweetheart, he does some ir-raising stunts, going over a cliff his bike. His tricks are said to be tter than those done by the average ick bicycle rider besides putting er typical St. John laughs. His bicle riding is the most thrilling ever en in any comedy.

'WHEN A WOMAN STRIKES' STARTS AT DREAMLAND THEATRE TOMORROW

"Quick" Benton (Ben Wilson) is the st liked man in the country West of e Rockies.' He is the stage driver d has as one of his passengers on s weekly trip over the range, Lassie oone (Neba Gerber) whose father Sis Doone (Robert Brower) is failing years.

Arriving at Lassie's destination Quick" defends her against the adnces of "Shady" (George Nichols) a torious gambler and "gentleman." Quick" and "Shady" clash. Lassie's other is accused of murder. Lassie eeting with "Quick" results in their arriage and shortly afterward he made sheriff of the county. Lase's brother comes to her for proteon. "Quick" knows nothing of the lationship and suspects that his ife is not true to him.

Marquita (Rosemary Theby,) a Spanh girl, is a friend of "Shady." She ows the secret of the murder for hich Lassie's brother is charged. Shady's" unfaithfulness to Marquita uses her to turn against him and she confesses all, after killing 'Shady' in a jealous rage. The mystery is solved. Lassie's brother is declared innocents of the charge and happines reigns in the Benton family.

This is the story of "When a Woman Strikes" told briefly. It will be seen on the screen of the Dreamland Theater tomorrow. The greatest Western melodrama of them all.

'THE TWIN PAWNS' AT STRAND THEATER SUNDAY AND MONDAY

Greed, one of the seven cardinal sins, is responsible for the thrilling plot of "The Twin Pawns," Mae Murray's newest offering and her first for Pathe, which comes to the Strand theatre next Sunday and Monday.

John Bent, the character admirably portrayed by Warner Oland, famous screen villain, was consumed with a passion for greed. Fate, playing as she, sometimes does into the hands of the treacherous and unworthy, gave him the tools for the carrying out of a most diabolical plan whereby he gained complete control of a vast fortune for a time!

Youth and love are strong forces! Pitted against fiendish cunning, they suffered for a time, but virtue is bound to declare a supremacy over evil eventually. Violet White, loving Bob Anderson, was forced to marry Bent, who sought her money. Its often been done before on the stage and screen and between the covers of books—and in real life—but the consequences of this marriage perhaps never had their duplicate anywhere except in Wilkie Collins' novel, "The Woman in White," from which Leonce Perret adapted "The Twin Pawns."

ASTHMA WOULDN'T LET HIM LIE DOWN
HASN'T HAD A SIGN OF TROUBLE NOW FOR OVER 9 MONTHS
"A year ago I had asthma so bad my friends thought I would never get over it. I had doctored for a long time without results. I had not been in bed for 3 weeks, could not even sit up straight in a chair. Then I heard of Milks Emulsion and started using it. It was only two days later that I could go to bed and sleep soundly. After taking eight bottles ($4 worth) I found myself completely cured. It is over 9 months now since I quit taking Milks Emulsion, and I haven't had a symptom of asthma since."—Geo. W. Baker, R. F. D. 1, Latrobe, Pa.
Why shouldn't Milks Emulsion help you? It has worked wonders for others. It costs nothing to try.
Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milks Emulsion is strongly recommended to those whom sickness has weakened, and is a powerful aid in resisting and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved—usually in one day.
This is the only solid emulsion made and so palatable that it is eaten with a spoon like ice cream.
No matter how severe your case, you are urged to try Milks Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and $1.20 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.

ts is necessary since the
l in turning travels a
tance, and, were there no
allowance for this, one or the other rear tire would drag over the ground and wear. Other uses will be discussed later.

The differential housing is kept from twisting by a torque tube or rod which is fastened to the frame. To keep the rear axles at right angles to the frame there are radius rods to tie them to the frame.

The front axle really is not an axle, but a part of the frame, and the axles consist of a steering knuckle suspended in a yoke at the ends of the pseudo axle, and the wheels turn on tapered spindles forged with the knuckles. The latter are connected with a tie rod, which makes them act together, and a turn buckle keeps the wheels aproximately parallel, since they undergather to bring the lead over the center of the kunckle, for strength. This calls for a slight foregather; that is, the whels toe in to keep them from wabbling too much. It brings a slight pressure on each wheel similar to that of the water on the bow of a boat, and makes steering easy Neither the foregather nor undergather is to be excessive, for there is a slight wear occasioned, offset, however, by the advantages of keeping a straight track A steering wheel and mechanism control the front wheels.

Brake drums are attached to the rear wheels, with inside and outside bands and appliances to tighten them against the drums, giving friction to slow or stop the car These are connected to levers and pedals for use by the driver Upon the chassis frame forward rests the motor, bolted fast Forward of this is the radiator, if it be water cooled with connecting pipes to the motor water jacket. The cooling system may be by pump or thermo syphon In some cases engines are air cooled. The aim is to keep the motor just cool enough to keep the lubricating oil from burning on the cylinder walls

To supply the motor with fuel there is a carbureter, which mixes air and gasoline in proper proportions, the supply of gasoline coming by pipe from the fuel tank. The modern method uses a vacuum tank which, by suction from the intake manifold, draws gasoline from the main tank and then feeds it by gravity to the carburetor Levers give the driver control of the fuel supply

To ignite the fuel there is a battery and coil, or a high tension magneto with its own coil and distributor, or a combination of both, controlled by a lever on the steering wheel When a self-starter is used there is a storage battery supplying starting motor and ignition and fed by a generator, and usually the latter has a circuit breaker and distributor, though sometimes there is a separate magneto and coil

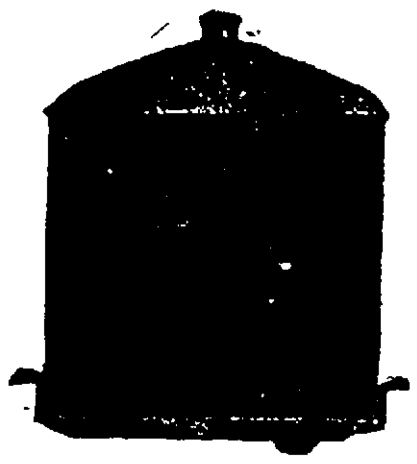
Lubrication is supplied by splash system, or by gravity or force feed oiler system with pipes leading to the bearings. In the splash sytsem projections on the connecting rods dip into the oil and splash it over the internal parts

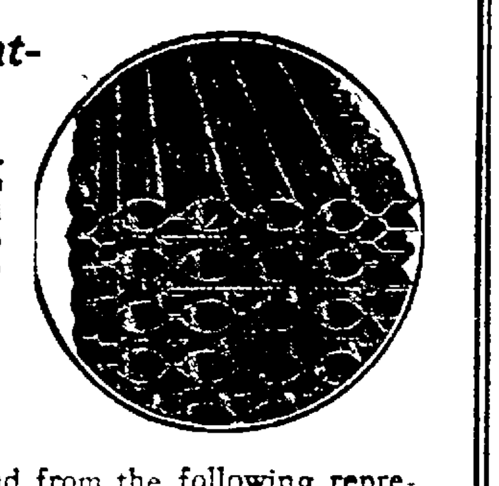
The engine consists of one or more cylinders each with a piston with rings to seal the cylinder with the aid of oil. The pistons are connected to the cranks with connecting rods, the explosion in the cylinder forcing down the piston, thus turning the crank and producing rotary motion. The flywheel carries the crank over the strokes, making the motion continuous

To connect the power to the driving wheels are several devices. First is the clutch, which serves to apply and cut off the power without stopping the motor, by friction in some form. The most common are the is the clutch and the multiple disk clutch To provide for varying speeds and reversing and extra power when needed, gear sets are introduced In a general way this is a set of cog wheels of different sizes on parallel shafts. Engaging different sets of gears gives varying speed forward or reverse motion.

From the gear case the power is transmitted by the drive shaft with one or two universal joints to take up the angle between the engine level and the variation due to spring action

Upon the whels are tires made up of a rubber and fabric casing, with a soft rubber tube, which has a valve for inflation. They are made in differing forms, but all answer the general description except that some trucks use solid rubber tires





The Guaranteed Radiator For Fords

It Will Not Boil—Stands Repeated Freezing

Think of not having to worry any more this winter about your radiator and the cold weather! Well, you don't have to when you have a LOBER non-bursting radiator.

The Core in the LOBER Radiator is guaranteed not to burst from repeated freezing. No OTHER make of radiator can give you this protection.

This Is an End View of "Lober" Patent Radiator Core

Looks like a honeycomb. Core is made of brass, with wide, spring brass springs between each water tube section This gives the core elasticity to take up road strains and to stand repeated freezing All water parts made of brass Water tubes are straight up and down and will not clog from deposits from the water.

CUT BELOW shows how the water tubes can expand when frozen. The wide brass spring presses the tubes back in place after each freezing.

We set Lober cores in any make of radiator.

LOBER Non-Bursting Radiators can be had from the following representatives:

A CHALMERS

with an Elegant New Body

It is new, will no doubt be widely copied in another year, and expresses elegance. It is "cut" high in the front at the radiator line, and low from the windshield back.

You sit close to the ground; the side line is considerably lower than in any previous Chalmers.

Seats are lower, tilt more; you cling to the seat cushion, and you have abundance of foot room, front and rear.

In detail this new body possesses a completeness, a finality that seems impossible to improve upon.

Underneath the body is the same, unchanged Chalmers chassis that is well nigh faultless.

Hot Spot and Ram's-horn continue in their original and masterly way to get out all the power that nature put into gas, though the complaints against the grade of gas today increase daily.

There's a limit to the supply of the new Chalmers, but there seems to be no limit to the number of those who insist on one.

As a word of warning—see this new Chalmers immediately.

Extra Fine in Mileage

A Maxwell car weighs 2130 pounds. It is made of the finest materials that may be obtained.

You cannot find in any car a better crankshaft, better bearings, better axles or better gears.

Neither science nor money can produce them better.

Do you know why such fine materials are used in a car like Maxwell?

We had to.

Keeping its weight down and yet maintaining strength mean the use of only those extra fine steels and metals.

For a metal that is light in weight and yet strong, as any user of metals knows, is a high priced metal.

The use of these fine grades of steel has been the foundation of the business. Maxwell has grown in numbers and friends. The latter countless; the former well on the road to 400,000.

IST RE-CHARGE STARVED BATTERY

is commonly known that a man has been without food for a long nd cannot immediately resume ry eating without serious result ntifically the reason for this is his system is not prepared for len overloading He must be fed ll quantities of food frequently in r that his system may adjust it-

This condition has an exact parallel when applied to storage batteries A storage battery which is in a completely exhausted condition or what is commonly known as "starved" can not be brought back to normal again simply by running the engine and generator Many car owners believe that they can recharge an exhausted battery by this method This practice however is a mistake, the direct result of which is to shorten the battery's life

The only way to properly recharge an exhausted battery is to have an expert remove it from the car and charge it from an outside source at the proper rate, carefully adjusted to meet the changed condition of the battery "Our equipment" says F. S. Aust local Willard representative, recently "is complete in every respect, with the most modern type of delicate electric instruments. We have found many cases where a battery had to be recharged very carefully in order to conserve its life. This calls for a great deal of care and constant watching on the part of our men, all of whom are experts in their line."

AFTER CARBON REMOVAL

Sometimes the owner of a car having a detachable head engine, after scraping out the carbon and getting the motor to going again, finds that there is a water leak at the head and that the power plant does not run as well as before he operated upon

BALL BEARING CAR

Few owners pay the attention the ball bearings that these serve. They usually wait until garage man calls attention to injury done by breakage. At once in six months ball bearings should be inspected, the rough worn balls replaced with ones and the ball run filled graphite grease.

"Sinnapaschugy" Is New Indian Term for Autos

Monticello, Utah, Jan. 31.—The automobile has become so common among the Indians of the Navajo, Hopi and other tribes in San Juan County that the Redmen have coined a real Indian name for it. Because of its legnth, the word may not become as popular with the pale faces as "wampum" and "wigwam," but the Indians are using it exclusively. "Sinnapaschugy" is the new adaptation for the buzz wagons, and translated means "goes with a chug."

ROUGHNESS CHARACTERIZES SANDUSKY HI VICTORY HERE

Teams Battle Even in All But First Quarter When Sandusky Secured 12 to 2, Final Score 19 to 9

Last night the Sandusky High basketball squad defeated the local high school team by a 19 to 9 score. The game was one of the most exciting that has ever been witnessed on the Y. M. C. A. floor, due to the somewhat hard feelings which developed between the two contesting teams during the course of the game.

Several arguments, one of which ended in a fight which resulted in two of the players, Ross of Sandusky, and Hurst of Elyria, being put off the floor. From a neutral point of view the altercation was as much the fault of one as it was of the other. From the viewpoint of an Elyria sympathizer, however, Hurst got the worst end of the deal, in as much as Ross had been roughing the l considerably. Earlier in the game Lockard and Brown exchanged a few blows following Brown's landing a hard swat on the side of Lockard's head. As the referee did not wish to heighten the hard feelings he merely warned the two players.

The first score was made by Pusbach on a free throw which was followed almost immediately by a free throw by Ross. From this point on the Sandusky quintet literally ran over the local team due, perhaps, to nervousness on the part of the Elyria boys, and the quarter ended with the score 12-2 in favor of Sandusky.

The next quarter neither team much and the half ended with the score 13-3.

In the second half the score ran even, altho both teams played hard and fast. If the Elyria bunch had been able to shoot baskets, the score might have been different but, as it was, they merely succeeded in holding the other team. Both teams managed to score six points and the half and game ended with the score 19 to 9 in favor of Sandusky.

The Fourteen Points

There are fourteen points of superiority in a Philadelphia Diamond Grid Battery—fourteen bulwarks of strength that defend it against the usual battery troubles. Some are more important than others, but each one guards against a specific battery trouble.

Point 1—The Diamond Grid

The Diamond Grid, an exclusive feature in the Philadelphia Diamond Grid Battery, differs from other grids in that the members cross each other at angles in the same manner as the structural steel work of a bridge. These angle braces support the plate in every possible strain. That is why Philadelphia plates are so unusually strong.

Point 2—The Quarter-Sawed Hard Wood Separator

Philadelphia Separators are hard wood, quarter-sawed. This method of sawing gives perfect uniformity of porosity and insulation, as the soft grain and hard grain are arranged in regular alternating layers.

Point 3—The Philco Slotted Retainer

As a battery grows old, the active material tends to drop off the positive plates. Philco Slotted Retainers are placed next to the positive plates to prevent this. They are thin sheets of rubber, perforated with narrow slots. Although these slots are so numerous that they allow free passage of acid and current, the slots are so narrow that each retainer is, in effect, a solid wall that holdds the active material firmly in place.

The Philadelphia Diamond Grid Battery is sold with or without Philco Retainers. Without them, the battery is guaranteed for 18 months. With them, it is guaranteed for two years.

Point 4—The Petticoated Pillar Posts

The lead pillar posts are supplied with petticoats or rings with sealing compound packed between them. This effectually prevents acid creepage.

Point 5—Mould Covers

The cover of each cell is moulded—not flat. The expansion space is ample.

Point 6—Unit Seat Assembly

Each cell is sealed separately and thoroughly tested before the battery is assembled.

Point 7—Bayonet Catch Filler

METHODIST EPISCOPAL

William B Winters, minister Residence 506 East avenue Study in the church.

9:30 a. m Sunday school. Every teacher, with carefully prepared lesson, in place and every officer to his task promptly is the motto. It is the King's business and therefore the need of care. Perhaps thy coming was for such a time as this

10:45 a. m. Special service. A class of the boys and girls from the adults are to be received into the church. The sermon will be relative to the child subject, "The Child and Religion" or "The Future Church." It is particularly desirable that the entire family be in this service. Hubbard Wilcox will sing a solo appropriate to the occasion. As further supplementing the teachings of the hour. The choir will sing the recessional and Miss Dellenbach will sing "The Voice of the Wilderness."

6 p. m. Epworth League. This is to be a missionary meeting. It will be full of great interest. Everyone is requested to come prepared to make a liberal contribution toward the pledge of this department to the centenary

7 p. m. Preaching. Evening subject: "The Peril and Promise of the Printed Page in Book, Newspaper and Magazine." The choir will render another one of their fine anthems and lead the congregation in a number of evangelistic songs. Could there be a more important question than this one, "What Shall we read. As a man thinketh so is he and as a man reads, so he thinks. Before there cometh the better man there must come improvement in reading.

Prayer meeting Thursday evening at 7:30 o'clock. The lesson will be in the nature of a Bible reading on "Becoming a Christian."

FIRST SPIRITUALIST

First Spiritualist church, Elyria. Grand Army hall, 2:30 p. m. Henry Bighee Warner, pastor. Lecture at 2:30. "The Law of Psychic Phenomena. Messages will be given by Mrs. Loretta Rhoads of Second church, Cleveland.

UNITED PRESBYTERIAN

You are cordially invited to this friendly church which has a warm elwcome for all strangers and those welcome for all strangers and those especially. You will be a stranger at this church but once.

This friendly church is located on the corner of East avenue and Second street. There is a place in the Sunday school for you, either in the adult or children's departments and you will be led in your thought by competent teachers. The hour is 9:45. Morning worship at 11. Stewardship of Life" This is the first sermon on stewardship beginning the month set aside for this theme by the New World Movement. There will be something of interest for you in this service. C. E. at 6:15. This is a live society which it will be worth your while to attend. Evening worship at 7, "Different Kinds of Laughter." Good music at all our services.

FIRST CHURCH OF CHRIST SCIENTIST

Subject—"Love."

Sunday school at 9:45 A. M. Sunday morning services at 11 o'clock. The Reading room and etc.

SECOND CONGREGATIONAL CHURCH

Corner Lodi and Lake. William Flammer, Pastor.

Bible school, 9:45.
Evangelistic Service 11:00.
Meeting for Men 3:00.
Junior Society 4:00.
Christian Endeavor 6:00.
Evangelistic Service 7:15.

Sunday marks the closing day of the Harris Campaign. All members are urged to be present. Let every body avail themselves of this last opportunity of hearing "Mother Harris". Mrs. Harris has proven herself a mighty power in the community. Her pulpit messages have been received with deep appreciation on the part of all and scores have responded to her earnest appeals. Her afternoon lectures to women have been received with greatest helpfulness and deepest appreciation on the part of all who have attended.

Sunday will be an outstanding day. Mrs. Harris will preach at eleven in the morning and at seven-fifteen in the evening. She will also address the men at 3:00. All men are invited to hear her on the subject "Wages."

Mr. Klingler will sing at all services.

Free will offering will be taken at all services for Mrs. Harris.

On Monday night at 7:30 Mother Harris will tell the story of her life. This will be the most interesting and helpful meeting of the entire series. Let every body greet her at this time.

ST ANDREWS EPISCOPAL CHURCH

This Sunday is known as Septuagesima reminding us that it is now seventy days before Easter. Epiphany taught us to think of Christ manifesting Himself as the Light of the World. Septuagesima directs us to look to ourselves in preparation for the holy season of Lent which begins Feb. 18th. The morning sermon will indicate way in which we may make that preparation the text being "So Run That Ye May Obtain." The morning sermon will consist of Holy Communion and sermon at 10.30. Evening service at 7. Church school at 9:15. All are welcome.

ST. PAULS EVANGELICAL

Sunday school at 9:30 a. m Classes for all ages. Let's have a fine attendance omorrow. Bring someone with you.

Services at 10:45 a. m. German preaching. Junior class will sing.

Come to the little church with a big welcome.

CHURCH OF CHRIST.

The Church of Christ, desirous of serving the community to the limit announces its services for tomorrow and extends a cordial invitation to all who desire its services to worship with us.

9:20 Bible school. The new teachers will begin their work tomorrow. They will be glad to see the classes well filled; also the other teachers will be happy to see every pupil in place.

10:35 morning worship. The theme for the message being "Life's Most Momentous Question."

6:00 Senior and Junior societies meet. After their regular topics they will have their class periods in the School of Missions.

6:30 General assembly for the School of Missons. The school continues to grow and the session for tomorrow promises to be one of the best yet. The sessions are open to all and are highly interesting. Following the class periods there will be a stereopticon lecture on Africa.

FIRST CONGREGATIONAL

Corner Court and Second streets Rev. J. H. Grant, minister.

A cordial welcome to our Father's house is offered to all sorts and conditions of men in need of sympathy and help—to all who want to live true lives, serving God in their day and generation; to the rich and poor, young and old, learned and ignorant; and especially to all who are lonely and discouraged; to all who seek God and want to pray and feel after him if haply they may find him—to all these and whosoever will we give heartfelt and true welcome to this our Father's house.

Program for the day:

9:45. Church school. Classes for all, from four to fourscore years.

10. Adult classes taught by Mrs. Miller, Mrs Grant. Mr. Hindman and men's discussion class.

11. Morning worship. Sermon by pastor. "The Valley of Decision"

3. East Side Sunday school.

6:20. Christian Endeavor day Topic. "Our Pledge." Intermediate society leader, Walter Penberthy; senior society leader, Manhattan Lengel.

7:30. Evening worship. Stereopticon service "Foregleams of Liberty."

FIRST BAPTIST

A most gracious evangelistic campaign has been conducted during the whole month. Sunday will mark the closing of that work.

First—A rousing Sunday school is desired, promptly at 9:45.

Second—The pastor, R. E. Neighbour, has announced two special sermons on Prophecy for Sunday. These sermons have been particularly prepared for delivery at the State Michigan rophetic conference in Grand Rapids, Mich.

The morning subject is "The Place and Power of Prophecy in Practical Christianity."

Mr. Neighbour will show that the three chief slurs against pre-millennialism are utterly false. These slurs are: First, that prophecy produces star-gazers. Second, that prophecy cuts the nerve of missions. Third, that prophecy belittles the great fundamentals of faith.

Sunday night, Mr Neighbour will preach on prophecy upon the theme, "The Lamp that Shines in the Dark Place until the Day Dawns." After showing the darkness of this present age, the preacher will contend that those who sneer at the prophecy in reality seeking to extinguish the one ray of light God has shone into the darkness

The ordinance of Baptism will be administered to a number of new converts at the close of the services

GRACE LUTHERAN

Corner Princeton avenue and East River street. Rev. Harry C. Mahly, pastor.

Sunday school, adult Bible class, 9:15 a. m.

Morning service at 10:45. Sermon subject: "The Fight of Faith." Lord's supper will be administered at this service.

Evening service at 7. Sermon subject: "The Church's One Foundation."

Grace church has a welcome for everybody, especially for the stranger in town and those without church homes of their own

GOLDEN RULE AS A BUSINESS WEAPON

By Napoleon Hill.

seems ridiculous to refer to the Golden Rule as a n," but that is just what it is—a weapon which no ce on earth can withstand!

e Golden Rule is a powerful weapon in business be- here is so little competition in its application.

the time of this writing the whole world seems to ne into the business of "profiteering," which means e as "getting without giving fair value in return." s spirit of greed cannot long prevail. What an op- y, then, for the far-sighted men who will adopt den Rule as their business motto now. The con- ould be so noticeable that it would excite wide- comment and bring all the business that could be , and long after the profiteers have gone out of those who have applied the Golden Rule would t they had "built their houses upon a rock."

at a glorious opportunity the labor unions have to victory—permanent, profitable, bloodless victory— ying the Golden Rule and making it their motto. ion labor be big enough to see this opportunity ze it? What an opportunity the present situation ome man in the rank and file of labor to rise to ip not only of organized labor merely but to the and most responsible leadership, the American have to offer, by influencing labor to conduct its under the Golden Rule philosophy.

ere is not a situation on earth which does not offer lid opportunity for someone to benefit by making he Golden Rule.

e time is not far distant when it will be business sui- try to conduct business under any other standard the Golden Rule. This fact is so obvious that it o this writer expedient for the wise ones to fall in v and thereby get credit for something which they er have to do anyway.

opt the Golden Rule as your business motto and on your business stationery and in every advertise- ou publish. It will pay you handsomely.

What Shall I Be? Answered for Girls

The Librarian

By [illegible]

The position of librarian is [illegible] than teaching and older than social service [illegible] same [illegible]. The hours are similar and the work not as wearing as teaching.

Subordinate Positions

There are six possibilities at least in public library work. The lowest paid position is that of assistant, many assistants are needed and the positions are largely filled by young girls. The librarian in a small city gains a valuable experience. Next comes branch librarian in a large city, which is a position of considerable responsibility.

The children's librarian is a special field and in cities requires a real social worker. The story hour demands yet another kind of talent in the children's librarian.

Higher Positions

There are two higher positions in public library work to which a girl may aspire. One is the head of a department, such as the reference, cata-

logue or periodical and requires experience and technical ability. The other and highest position of all is the chief librarian in a large city, who oversees the staff of workers, all the branch libraries, makes out the budget and organizes new departments. These positions are naturally rare and filled by the most capable women.

The Reference Librarian

One of the best paid, as well as the most pleasant positions, is that of reference librarian in a city high school or a college or university library. In these positions the librarian receives a salary on the same scale with the other instructors. Such a position requires the best of preparation.

Demand and Training

There is a growing demand for trained librarians, although the salary paid does not as yet justify such a demand. The majority of librarians holding positions today have had in addition to practical training, only a summer school course, or at best a year in some library school.

Many schools throughout the country offer courses in library training. Any girl who is interested can get the names of such schools from her local librarian or by writing to the head of the Public Library in some large city.

What Shall I Be? Answered for Boys

Veterinary

By R. S. ALEXANDER

[illegible] have [illegible] naries [illegible] way about it, [illegible]

The cows which give the milk you put on your breakfast food have to be inspected frequently by a veterinary in order to protect you from disease. The cattle which are killed to furnish the meat you eat are, or should be, inspected by a veterinary so that you can be sure that meat is fit to eat. The foot and mouth disease is just about as dangerous to your health and comfort as the "flu" itself. A veterinary ought to have just about as much training as the physician that takes care of you—perhaps more. You are able to tell what your symptoms are but an animal cannot.

Think these facts over before you turn down the veterinary profession as a life work. It is interesting; it is important, it is needed.

The boy who thinks of going into veterinary work should first get a high school education and a college education, with special work in chemistry and biology, if possible. The old idea that an eighth-grader was ready for a veterinary school is a thing of the past. Then he should go to a good school of veterinary medicine. Most state agricultural colleges, as well as a considerable number of universities, have such schools. The Bureau of Animal Husbandry, Washington, D. C., should be able to inform you as to the best school to attend.

After graduation you may set up in practice, just as other physicians do. You may enter the service of the state or Federal Government. Much inspection and research work along the line of the prevention of animal diseases is done by the government. Or you may become attached to some great stock raiser or a group of stock raisers as veterinary for their flocks or herds.

For further information write the dean of your state agricultural college, the director of your state agricultural experiment station, or the Bureau of Animal Husbandry at Washington.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through taking them.

Dr Edwards' Olive Tablets are a vegetable compound mixed with olive oil. They act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood, and purifying the entire system. They do that which calomel does, without any of the bad after effects. Take one or two every night for a week and note the pleasing effect. 10c and 25c a box.

For Liver and Bowels Dr. Carter's K. & B. Tea

A Mild, Gentle Vegetable Laxative and Healthful Drink.

For the stomach, liver and bowels and to purify the blood, there's nothing more reliable. Give it to the little ones when they get feverish and can't eat. They like it and it does them lots of good.

RUPTURED? TRY THIS FREE

NEW INVENTION SENT ON 30 DAYS' TRIAL WITHOUT EXPENSE TO YOU

Simply send me your name and I will send you my new copyrighted rupture book and measurement blank. When you return the blank I will send you my new invention for rupture. When it arrives put it on and wear it. Put it to every test you can think of, the harder the test the better you will like it. You will wonder how you ever got along with the old style cruel spring trusses or belts with leg straps of torture. Your own good, common sense and your own doctor will tell you it is the only way in which you can ever expect a cure. After wearing it 30 days, if it is not entirely satisfactory in every way—if it is not easy and comfortable—if you cannot actually see your rupture getting better, and if not convinced that a cure is merely a question of time, just return it and you are out nothing. Any rupture appliance sent on 30 days' trial without expense to you is worth a trial. Tell your friends of this. EASY-HOLD CO 934 Koch Bldg, Kansas City, Mo.
